Deming Ice & Electric Company

Deming is Growing

Progressive Community

Faster than any other community in southern New Mexico. It is now a city of 5,000 inhabitants in the center of one of the most important farming, cattle raising, and mining sections of the Southwest. It is located on three great railroads and far enough away from larger cities to allow it to develop into the great city it is destined some day to become.

INVEST IN DEMING'S LOTS

Situated close-in on the original townsite of Deming. Sold on easy terms. You are not too late to take advantage of the rise in values, which is bound to come with the increase in population. Do not overlook this speculative feature. The lots are going fast and shrewd buyers will not fail to make selections at once. Call at the office of the Water Company and get any information you may require.
